

Jangwon Park

Updated Sep. 2026

Contact	<i>Email:</i> jangwon.park@pitt.edu <i>Webpages:</i> https://parkjan4.github.io/ , LinkedIn	
Education	University of Toronto Ph.D., Operations Research Advisors: Timothy Chan, Vahid Sarhangian	Sep. 2021 – Jul. 2026
	École Polytechnique Fédérale de Lausanne MSc., Business Analytics Advisors: Daniel Kuhn, Evangelos Vrettos	Sep. 2018 – Aug. 2020
	University of Toronto BASc., Engineering Science	Sep. 2013 – Jun. 2018
Academic Experience	University of Pittsburgh <i>Assistant Professor</i>	Jul. 2026 – Present
Professional Experience	Research Intern <i>Swissgrid Ltd.</i> , Aarau, Switzerland ◊ Developed a hybrid optimization algorithm for employee scheduling, solving various instances by an order of magnitude faster than CPLEX, a commercial solver.	Mar. 2020 – Oct. 2020
	Data Analyst <i>Celestica International Inc.</i> , Toronto, ON, Canada ◊ Automated the monthly financial reporting process using Sisense and SQL, reducing task completion time from 8 to 2 hours per month.	May 2016 – Aug. 2017
	Research 1 st place, 2024 CORS Healthcare OR SIG Student Paper Competition 2 nd place, 2024 CORS Queueing & Applied Prob. SIG Student Paper Competition	
Selected Honors	Awards MIE Doctoral Completion Award (\$4,000) NSERC Canada Graduate Scholarship (\$115,000) Mart Liinve Graduate Scholarship (\$3,800) Ontario Graduate Scholarship (\$15,000) 6T6 Industrial Engineering 50th Anniversary Award (\$3,000) Queen Elizabeth II Graduate Scholarship (\$15,000) NSERC Undergraduate Student Research Award (\$4,500) University of Toronto Scholars (\$5,000)	2026 2023–26 2024 2022 2021, 2022 2021 2015 2013
	Research Areas health policy, analytics for healthcare operations stochastic modeling and control, applied causal inference, applied machine learning	

- Working Papers **Sequencing of microbiology tests for human milk banks: A partially observable Markov decision process approach**
 Timothy C. Y. Chan, Jangwon Park, Rachel Wong
Work in progress
- Value of human milk pooling: A field experiment**
 Timothy C. Y. Chan, Jangwon Park, Rachel Wong
Work in progress
- Impact of team-based care on surgical oncology wait times**
Jangwon Park and Christopher Yao, MD.
Work in progress
- Operational and clinical impact of inter-hospital patient transfers**
 Carri W. Chan, Jangwon Park, Vahid Sarhangian, et al.
Work in progress
- Dynamic transfer policies for parallel queues** [[arXiv](#)]
 Timothy C. Y. Chan, Jangwon Park, Vahid Sarhangian
*Major Revision, **Manufacturing & Service Operations Management**, 2026*
 ♦ **Runner-up**, 2024 CORS Queueing SIG Student Paper Competition
- Published Papers **Optimizing inter-hospital patient transfer decisions** [[SSRN](#)]
 Timothy C. Y. Chan, Jangwon Park, Frances Pogacar, Vahid Sarhangian, et al.
***Manufacturing & Service Operations Management**, 2026*
 ♦ **Winner**, 2024 CORS Healthcare SIG Student Paper Competition
 ♦ **Selected for presentation**, 2025 MSOM Healthcare SIG
- Robust confidence bands for stochastic processes using simulation**
 Timothy C. Y. Chan, Jangwon Park, Vahid Sarhangian
***Operations Research Letters**, 2026*
- Evolution of the surgical procedure gap during and after the COVID-19 pandemic in Ontario, Canada: a cross-sectional and modeling study**
 Rachel Stephenson, Vahid Sarhangian, Jangwon Park, et al.
***British Journal of Surgery**, Vol. 2023, pp. znad289, 2023.*
- Trends in Short-Term Renewable and Load Forecasting for Applications in Smart Grid**
 Deepa Kundar, Dongchan Lee, Jangwon Park
***Smart City 360** (2016), pp. 292-300*

Teaching Experience	Industrial Engineering, University of Pittsburgh	
	<i>Instructor</i> , Stochastic Simulation (IE 2088)	Spring 2027
	<i>Instructor</i> , Probabilistic Methods in Operations Research (IE 1082)	Spring 2027
	Mechanical and Industrial Engineering, University of Toronto	
	<i>Instructor</i> , Analytics in Action (MIE368), <i>Instructor Rating: 4.5/5</i>	Fall 2024
	<i>Teaching assistant</i> , Stochastic Simulation (MIE1613)	Spring 2023, 2024, 2025, 2026
	<i>Teaching assistant</i> , Analytics in Action (MIE368)	Fall 2022, 2023
	Management, University of Toronto Scarborough	
	<i>Teaching assistant</i> , Advanced Business Data Analytics (OD31)	Summer 2022
Statistics Without Borders		
	<i>Volunteer instructor</i> , machine learning [video lesson]	Spring 2023
Industry Projects	Automating Order Management Process at Daily Bread Food Bank	
	Helen Lee, Jangwon Park , Rachel Wong	
	◇ Reduced staff time from 2 days to 2 hours per week.	
	A hybrid optimization approach for employee rostering: Use cases at Swissgrid and lessons learned [arXiv print]	
	Jangwon Park , E. Vrettos	
Presentations	“Operational and Clinical Impact of Inter-Hospital Patient Transfers”	
	Rotman Annual Research Roundtable 2026, Toronto, ON, Canada	
	“Dynamic Transfer Policies in Parallel Queues”	
	CORS Annual Conference 2024, London, ON, Canada	
	INFORMS Annual Meeting 2024, Seattle, WA, USA	
	MSOM Conference 2025, London, UK	
	INFORMS APS Conference 2025, Atlanta, GA, USA	
	“Optimizing inter-hospital patient transfer decisions”	
	CORS Annual Conference 2024, London, ON, Canada	
	MSOM Healthcare SIG 2025, London, UK	
	“Robust confidence bands for stochastic processes using simulation”	
	Ph.D. Colloquium, Winter Simulation Conference 2024, Orlando, FL, USA	
Research Mentorship	Miyu Aoki (PhD advisee)	Sep. 2026–Present
	Sarvnaz Ale Mohammad (undergraduate thesis)	May 2026–Present
	Helen Lee (summer project, undergraduate thesis)	May 2024–Apr. 2026
	Arman Zahar (undergraduate research project)	Aug. 2025–Present

Service **Ad-hoc journal referee:**
 Health Care Management Science

Conference session chair:

CORS Annual Conference	2025
INFORMS Annual Meeting	2024
INFORMS Healthcare Conference	2023
